FIREMAN KILLED BY FALLING WALL

Joseph Whitlow, of Winston, Dies at Post of Duty.

DISASTROUS FIRE.

While Assisting In Checking Flames Which Threatened To Destroy Business Block In Twin-City Brave Fireman Is Hurled Into Eternity by Falling Wall—Other Companions Narrowly Escape—Damage Estimated At Hundred Thousand Dollars—Greensboro Called On.

Winston-Salem, Feb. 24.—While assisting in checking flames, which threatened to destroy a business block in the center of the city tonight, Joseph Whitlow, a volunteer member of the Winston Fire Department, was caught beneath a falling wall and received injuries from which he died in a few minutes.

Whitlow with two other members of his company were standing on Liberty street in front of the Shepard store pouring water on the burning building. About 11:30 o'clock Fire Chief R. L. Hopper told the men to get back, that the walls of the building were on the verge of falling. The firemen did not rush back at once and within a minute after the warning the wall fell with a crash, catching Whitlow. His two companions barely escaped.

The unfortunate fireman was at once extricated from beneath the debris, but he expired within a few minutes. He was 33 years of age and is survived by his wife and four children. He was a foreman for the Liipfert-Scales Tobacco Company and was liked by all who knew him.

The fire was discovered this evening at 7:30 o'clock in the building formerly known as Brown's warehouse, between Trade and Liberty streets. The building since being abandoned as a warehouse had been cut up into numerous stores, mainly occupied by grocerymen. There were no fire walls between the stores and the fire soon spread over the entire building. When discovered the central portion of the building was on fire and it is not known in whose store the fire originated. There were at least a dozen stores in the building.

The fire department of Winston was quickly on the scene, but it was soon discovered that the entire building was doomed. So the efforts of the firefighters were directed in preventing the flames from spreading to the adjoining buildings. It was at one time feared that they would be unable to cope with the flames and a call was sent to Greensboro for assistance. However, by heroic work the progress of the fire was checked, being confined to the one building.

The loss is estimated at from $80,000 to $100,000, half of which is covered by insurance. This is the most disastrous fire that has visited Winston since 1902 when several factories were burned.

The Greensboro Fire Department received a call from Winston and the Eagle Hose Company prepared to go over to assist in the firefighting. The hose wagon was carried to the Davie street crossing and the Southern was getting cars in readiness to rush the firemen to the scene when a message was received stating that the flames were under control.

Slides of Earth Continue on the Panama Canal.

Washington, Feb. 24.—Slides of earth from the heights above Culebra cut on the Panama canal are continuing. The slide which occurred February opposite the Y. M. C. A. club house at Celebra carried 550,000 cubic yards of loose earth into the cut, covering a steam shovel, a coal train with its locomotive and two trains of earth dumping cars. The canal record states, however, that all slides since last July do not exceed the total of 6,104,000 cubic yards allowed for in the revised estimates, nor will the added excavation increase the estimate of cost of excavation in the central division made in October 1908.

SINGERS MADE A DECIDED HIT

Metropolitan Grand Concert Company Delighted Large Audience At the Normal College Last Evening.

Upon entering the auditorium at the Normal and Industrial College last evening one could easily discern that the atmosphere was different, at least in one respect, from that about former audiences of the season attending upon the several classical performances at that institution.

The Metropolitan Grand Concert Company, which was the attraction for the evening, made a decided hit. The singers were not sufficiently "warmed up" in the first number, the quartet "What from Vengeance," from "Lucia," to satisfy to the depth, but it was a great number, nevertheless.

Frederick Martin has long since won his laurels in Greensboro as a favorite basso, and his first number, "I'm a Roamer Bold and Gay," was an especially fitting number, in that it not only expressed his apparently happy and buoyant spirit, but gave opportunity for display of his wonderfully sonorous voice, his splendid technic and his perfect enunciation in the more rapid passages.

Mme. Chilson-Ohrman possesses a soprano voice of singular sweetness, and her rendition of the "Polonaise," from "Mignon," was as nearly perfect as one is soon again likely to hear. She has an abundance of warmth, passion, and emotion, a beautiful stage presence; and her trills and cadenzas are emitted with wonderful flexibility and artistic finish.

Miss Hussey, a contralto of remarkable depth and richness of voice, delighted her auditors with two songs, "Three Comrades," and "Afton Water," in which numbers she exemplified a remarkable versatility and range.

Mr. Duffie, while he may not have been at his best in his first songs, certainly failed not to impress his hearers in his final numbers as a tenor of pure lyric quality and temperamental and interpretative ability. He sang "Song of 'Prince of Yellow Rose,'" "Song of the Sword," and "Love Is the Wind."

Miss Susie Ford, the pianist, is easily one of the very best performers on the pianoforte that have visited Greensboro for many a day. Nothing could be said honestly in disparagement of her work.

She has the soul of the singer and the interpretative ability of an artist—two indispensable qualities requisite in an able accompanist.

Plaintiff Gets Verdict.

In Guilford Superior court yesterday morning the jury in the case of Lelia A. Patterson by her next friend, Roxie A. Patterson, vs. Greensboro Loan & Trust Co., administrator of Wm. Collins, deceased; C. C. Collins and Wm. Collins returned a verdict in favor of the plaintiff, awarded the entire amount asked for, $1,050. Notice of appeal was given. Court adjourned for the term before noon, all the remaining cases on the calendar having been continued.

Among them are Generals S. B. Buckner, Kentucky; I. C. Walker, South Carolina; Clement A. Evans, Georgia; Marcus J. Wright, Washington, D. C.; George W. Gordon, Tennessee, and T. T. Munford, Virginia.

The funeral of the late C. L. Dixon will take place at the Holiness church this morning at 9:30 o'clock and will be conducted by the pastor of that church, Rev. W. R. Cox. The interment will be at Green Hill cemetery.

Charged With Larceny.

The police yesterday arrested Jessie Vickers on the charge of stealing a pistol from Roxie Burnham. He will be given a hearing in Municipal court this morning. He denies his guilt.

U. S. Commissioner.

United States Judge J. E. Boyd yesterday appointed G. Ed Kestler, of Concord, United States commissioner for Cabarrus county. The term is for four years.

PRIMARY BILL SPECIAL ORDER

It Will be Considered Tuesday.

Measure Introduced By Senator Hobgood Requiring That All Parties Hold Primaries On Same Day Throughout State and At Expense of the State—Number of Rollcall Bills Pass Second Reading.

Raleigh, Feb. 24.—In the Senate this morning the Hobgood bill, requiring that all political parties throughout State hold their primaries on the same day and at the State's expense, came from the committee with a report without prejudice. The bill was made a special order for Tuesday at 11:30 o'clock. It is believed that the bill will be enacted into law.

The Senate.

The Senate convened at 10:30 o'clock President Newland in the chair, and Rev. Livingston Johnson offering the prayer.

Announcement was made by Senator Graham of the death of the only daughter of Senator Hawkins, of Warren county. An indefinite leave of absence was granted him and appropriate resolutions adopted.

New Bills.

Bassett: Make uniform bills of lading in North Carolina.

Baggett: Provide that electric power companies may use highways in developing water and other power.

Hobgood: Create two additional judicial districts. (He asked that this bill be placed on the calendar, but Senator Barnes objected and after a discussion the bill was referred to the committee on judiciary.)

Graham: Establish standard time in North Carolina.

The committee substitute for the Brown bill to prohibit liquor in clublockers came on the calendar with favorable report.

Fifty-four rollcall bills passed second reading and took their place on the calendar. Most of them were local bills, though among those of public interest were: Incorporate the Greensboro, Roxboro & Norfolk Railroad; amend the general drainage law of 1909; incorporate the Raleigh, Winston & Western Railroad; authorize the commissioners of Buncombe county to issue bonds to aid the Western Carolina Teachers' Training school; establish the North Carolina school for the feeble-minded; authorize counties to vote a special tax to supplement the school fund; protect the forests of the state from fires.

The Senate received from the House a resolution for a joint session Saturday at 12 o'clock to vote for trustees of the State University.

The Senate received a message from the governor recommending an appropriation for the expenses of a commissioner if one is appointed to visit San Francisco in regard to an exhibit by North Carolina at the Panama International Exposition.

Senator Cotten's bill providing for the Torrens land title system in North Carolina was taken up as a special order at 12:30 and after debating it for an hour and a half further consideration was postponed until Saturday at 12 o'clock.

CHRISTIAN CHURCH REVIVAL

Services Continue With Increased Interest—Song Service Begins Tonight At 7:30.

The revival services at the Christian church continue with increased interest. Promptly at 7:15 last night the men met in prayer meeting in the Young Men's Sunday school room, a veritable spiritual feast. Join us tonight at the same hour. Promptly at 7:30 the rostrum was crowded with singers and the music began with life and vigor under Mr. Butler's direction.

The service was unusually spiritual. After the benediction the choir remained to learn some new songs and to sing some choruses. The congregation just hung on until the practice was about over. A young man was converted at the close of the service. Mr. and Mrs. Butler sing at every service.

Rev. L. E. Smith, the pastor, will preach this evening on the subject "Bringing Men to Christ." Sunday at 3 p. m. a special service for men will be held. Public cordially invited to attend these services. L. E. Smith, pastor.

ALLISON DIES IN ELECTRIC CHAIR

Murderer Pays Death Penalty For His Crime—Ready To Die, He Said.

Raleigh, Feb. 24.—Out at the State's prison this morning at 10:30 o'clock J. E. Allison, of Buncombe county, paid the death penalty in the electric chair for the murder of Floyd White or McGee in Buncombe county. Governor Kitchin has been appealed to in vain to interfere with the electrocution, the last appeal being yesterday by a son of the condemned man. The electrocution was in the presence of the prescribed thirty spectators. The case was quite a notable one. Allison and the murdered man had been at outs for a long while over a woman. At the fatal quarrel Allison fired three shots and when his victim fell he snapped his gun at him two other times and then took a blacksmith's hammer and pounded his head to a pulp on an old anvil that lay near.

Allison attempted to commit suicide after conviction and vowed the officer would never get him to Raleigh for the electrocution alive. The plea for commutation has been principally on the ground of mental irresponsibility. He has killed three men his time.

Just before the strapping in of the prisoner for the death currents Rev. J. S. Betts, his spiritual advisor, stated that Allison desired to make a statement. He said: "Why should I fear Him? Sin has brought me to die. Why should I fear Him? I hope to meet you all in Heaven, and may God bless you are my prayers."

There were still some signs of life after the second voltage had surged through his body. The first shock was at 10:36 1-2 o'clock and the physicians pronounced him dead after the third shock at 10:42 o'clock.

SCIENTIFIC FARMERS NEEDED.

Dr. Stedman Says Agriculture Is On Same Footing With Other Professions.

The colored farmers had another big day at the A. & M. College yesterday. The first lecture on the program was by Prof. Conover, of the state department of agriculture. He discussed the proper methods of protecting and disposing of the manure of the dairy barn and also the value of it as a fertilizer to the dairy farmer. He was followed by Dr. J. M. Stedman, assistant farmers' institute specialist of the department of agriculture, Washington, who delivered a very interesting and instructive lecture on the work of the national department of agriculture. He also spoke on the extension work of the agricultural colleges and experiment stations and of the work of the state departments of agriculture. He compared the progress in agricultural development in Germany with that of this country and showed that they were getting two and three times as much from an acre of land as Americans are now getting. He attributed their great advance to the education and training of the farmer in that country. He said that agriculture is now on the same footing with the other learned professions and that it required as much and as exact scientific knowledge to be a successful farmer as it does to be a successful doctor.

Dr. Stedman was followed by Prof. Sherman, of the state department of agriculture, who discussed the insects pests of the fruit trees and the proper methods of spraying to keep down these insects. He also discussed spraying mixtures and the various kinds of pumps. Prof. Sherman delivered another lecture in the afternoon in which he took up the garden insects and the methods of controlling them.

Some of the more prominent farmers in attendance and those who took an active part in the discussions were: J. F. Lyttle, Oliver Peeler and Prof. Stinson, of Mecklenburg county; W. A. Richardson, of Anson county; R. A. Alexander, L. W. White and Al. Russell, of Cabarrus county; S. W. R. Slade and Thomas Harris, of Wake county.

Campaign For Members.

The directors of the Merchants' Association met last night and outlined plans for a membership campaign to begin about March 15. Each of the directors will have a certain section of the city and the work for new members will begin in every district the same day. An effort will be made to increase the membership by adding 100 members. Men of every profession who are interested in advancing the commercial interests of the city will be invited to join the association.

GUILFORD GETS 4 LAWMAKERS

If Apportionment Bill Passes Senate.

County Would Have Senator and Three Representatives—Bill Sent To the Senate—Dillard Introduces Bill Creating Scales County Out of Portion of Guilford, Rockingham, Stokes and Forsyth—Machinery Bill.

Raleigh, Feb. 24.—If the bill by Mr. Quickel, which passed the House today, passes the Senate Guilford county will in the future have three representatives and one senator in the State's lawmaking body. The bill apportions the representatives and gives Guilford, Wake and Mecklenburg three representatives each. Buncombe, Durham, Forsyth, Gaston, Halifax, Iredell, Johnson, Nash, Pitt, Robeson, Rockingham, Rowan, Union and Wayne get two each and the remaining counties one each. The bill does not change the apportionment of senators and would give Guilford four legislators. After passing the House the bill was sent to the Senate.

Representative Dillard of Guilford, today introduced a bill creating Scales county out of portions of Guilford, Rockingham, Stokes and Forsyth counties. This is the new county petitioned by the people of the Stokesdale section of Guilford and would cut off a corner of each of the four counties mentioned.

Speaker Dowd convened the House at 10 o'clock. Prayer by Rev. Mr. O'Kelly, of the Baptist church.

There came from committee with favorable report the bill for the creation of state farm-life schools through state aid; encourage road building in North Carolina; provide for the maintenance of East Carolina Teacher Training School; provide free antitoxin; give livery stablemen leins for keep of stock and vehicles; establish reformatory for colored youth.

A bill was introduced by Representative Woodson to prohibit the introduction of further local and private bills after February 24 for this session. Also a bill by Mr. Devin to consolidate the department of agriculture and the A. & M. College. Dillard of Cherokee: Extend the corporate limits of Murphy.

Mr. Doughton for the committee on finance reported the machinery act, companion bill for the revenue bill that the house has already passed and sent to the Senate. One thousand copies of the bill were ordered printed.

The House took up as special order the Senate bill to appropriate $500,000 for state building. Spainhour contended that the bill should go to the committee on appropriations but on motion of Mr. Connor the rules were suspended and the bill put on its passage being purely a bond issue bill. This motion prevailed 58 to 11. Representative Horne spoke at length in advocacy of the bill and in the midst of his speech the House took recess at 2:20 o'clock to 8 o'clock.

HOMELY FACE HER FORTUNE.

Greater Demand For Plain Girls Than for Pretty Ones.

New York Herald.

There are lots of instances where beauty is invariably beaten to the job, when freckle may defy the massage parlor grade for complexion.

How about the commercial demand for the undecorative? It is even very great, the agents say.

The stenographer of one of the busiest managers of a large manufacturing concern in Chicago supplies at least a partial answer to those queries. She is sallow and sandy, freckled and spectacled. Each eye is watery and shows a tendency to peer in through the windows of the other's soul. She's got a streaky neck and a stringy figure. She has bony knuckles. She goes in where she should go out and out where she should go in.

But she has held her job for a good many years at an ever increasing salary.

Her employer regards her as the apple of his eye. You couldn't loosen his hold of her with a clasp knife. For a long time his attitude was a mystery to his friends, who were all enabled to become humorists through the inspiration of his stenographer. Then he proceeded to explain:

"You see," he said, "I'm in business for business, and I hire my stenographer for exactly the same reasons as I hire my foreman—because I figure them both out to be thoroughly efficient. When I was younger I hired many pretty girls because I like to have 'em around. But listen to this—I've never found a pretty girl who was really efficient in a business office. They think a good deal upon the subject of themselves and only a little bit on the work. They are probably figuring out how they're looking when they're doing everything.

"Every visitor who comes into the office, too, is continually rubbering and gives that stenographer a better idea of herself ever. She's always a pulling down her shirtwaist or fooling about her hair or rubbing chamois skin on her nose or taking a look at herself in her hand mirror. She counts a good deal upon her good looks to hold her job—and very often she counts right.

"You'll take bad punctuation from a pretty girl when you would never stand it from a plain one."

"And not only that," he went on; "she not only wastes her own time, but that of everybody else in the office. The boys are always peeking over the glass windows at her. Any clerk who can rake up a possible question to ask her will ask it. If she goes out into one of the passages somebody's sure to stop her to speak to her.

"No," concluded this man, shaking his head, "from a business point of view your pretty girl is a failure. She's a bad speller, a time waster and a disorganizer. Now, your homely girl," he went on, "is right down onto her job. She knows that if she doesn't nurse that nothing will save her. She can't think of her face, because that's fierce. She can't think of her shape, because she hasn't got any. She does think of her spelling, because that's her only hope. So usually your homely girl's a pretty good stenographer."

Indeed, it is surprising if you are collecting facts upon the utility of the decorative feminine how brightly the flat and angular young person shows up in comparison with her sister of the bright idea look and peachblow cheeks.

Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Texas, as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. Lucky He Stuck to His Opinion.

Pride of opinion is perhaps the most common fault of us fairly educated and intelligent moderns. We form our judgments and then, as it were, defy any one to change them. It is said that no one has ever been converted by abstract argument.

At the time of the great disaster in Martinique the Italian bark Orsolina was taking on a cargo of sugar there. Her captain was accustomed to volcanoes, and he did not like the appearance of Mont Pelee. Not half his cargo was on board, but he decided to sail for home.

"The volcano is all right," argued the shippers. "Finish your loading."

"I don't know anything about Mont Pelee," said the captain, "but if Vesuvius looked that way I'd get out of Naples, and I'm going to get right out of here."

The shippers threatened him with arrest. They sent customs officers to detain him, but the captain persisted in leaving. Twenty-four hours later the shippers and the customs officers lay dead in the ruins of St. Pierre.—Christian Herald.

DAY 762. PHONES NIGHT 1442

YANKEE Versus SOUTHERNER

By HARRY VAN AMBURG

Copyright, 1910, by American Press Association.

A steamer on the Mississippi river half a century and more ago would be a curious sight to a traveler today. One-third, the ladies' cabin, was used exclusively by women and children; the other two-thirds constituted a gigantic gambling establishment—not an establishment run by a bank, but used by gentlemen and sharpers, the former for amusement, the latter for swindling. At mealtimes one long table extended through the men's cabin, and when dinner was served the captain of the boat would enter the ladies' cabin, offer his arm to one of the ladies and escort her to the table, the rest following. As soon as they were seated the bell was rung and a waiting crowd dropped into their seats.

Southern gentlemen traveled on these steamers, men of the olden time, whose "word was as good as their bond." One day Colonel St. Leger of Canton, Miss., and Major Carter of Baton Rouge were enjoying a social glass before the little Punch and Judy affair in the bow of the boat that served for a bar when the colonel said:

"Majah, do you see those sharpe's ovah tha' fleecing that Yankee? He will go back to Connecticut or whareyah he comes from and repo't that we a' all swindle's down heah. Now, if I were to tell him that these men are cheating him he wouldn't believe me."

"There must be some way of saving him from them, colonel, if we could only hit on it."

"It doesn't occu' to me, suh."

Now, every gentleman in the south at that period played poker, and these two were both experts at the game. They finally agreed that the best way to save the Yankee would be to get him into a stateroom by himself, win his money and at the end of his journey hand it back to him with a lecture on the folly of playing cards for money on a Mississippi river steamboat. As soon as the small tables were united in a long one for dinner Colonel St. Leger approached the Yankee, entered into conversation with him and after the meal invited him into his stateroom to sample some fine old Kentucky bourbon he had there. The Yankee accepted, and Major Carter joined the party. After sampling the whisky the three sat down to a friendly game of poker.

Since the Yankee played very poorly and the two southern gentlemen were among the best poker players in the south it was not long before the Yankee's money was transferred to their ownership. But just as they thought they had him "broke" he pulled out a fat roll of new twenty dollar bills, with which he began to play recklessly. The colonel looked at the major and the major at the colonel. The colonel's look said, "By Jove, what a haul this would have been for the sharpers!" and the major's look replied, "Yes, and we must take it out of him for his own good."

One by one the twenty dollar bills passed into the hands of the Yankee's benefactors till at last all but one had been taken from him. With a gasp he opened a jack pot with it, raised and kept on raising the confederates until there was something like a thousand dollars in the pot. In the showdown he exhibited four aces against the colonel's four queens and the major's full of tens.

Again the colonel and the major exchanged glances, this time of astonishment. But they kept on their benevolent effort. Presently the Yankee said:

"Guess we'd better raise the limit. You fellers have taken $5,000 out o' me, and I want to get it back."

The southern gentlemen would have considered it a reproach to them to refuse under the circumstances and agreed. From that time forward the hands the Yankee held were phenomenal. It seemed that all the court cards in the pack fell into his hands, and, singularly enough, the confederates held large hands, too, but always a trifle smaller than his. Then when the former had recovered his losses he pushed back his chair and said:

"Gentlemen, you thought you had in me a greenhorn whose money you could easily win. I'm regarded the best poker player in Hartford. I don't wish to punish you for trying to swindle me, so I decline to play any longer."

Again the confederates looked at each other, this time in dismay. Then Colonel St. Leger, stammering and red as a boiled lobster, told his story. The Yankee put out a hand to each of his intended benefactors, saying:

"Is there anything more honorable as well as guileless than the true southern gentleman?"

When they settled up the Yankee generously turned over to his friends the new bills he had brought out, taking the worn ones himself. At New Orleans the three parted with expressions of mutual regard, the southerners going to the same hotel. An hour later they met in the barroom, each with a new twenty dollar bill in his hand.

"Majah," said the colonel, "this bill is a counterfeit."

"So is this."

"We've been done by that rascally Yankee."

"So we have."

"I've got fifteen hundred of it."

"I have the same amount."

There was a pause, at the end of which the colonel said:

"Majah, what will you have, suh?"

And the two commiserated with each other at the bar.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Sunday baseball has been sanctioned by the New York legislature, provided no admission is charged—a sort of free school and compulsory education act.

It would be vastly more appropriate to give 2 1-2 million dollars to the starving Chinese than to spend it on a monument to Washington.

Now a two and one-half million dollar memorial is to be erected to the first president, at Washington. J. Pierpont Morgan heads the subscription list with $100,000. We had thought that Washington City was sufficiently Washingtonized. And if the father of his country could happen in that monumental city on the 22d of February, he would perhaps ask that the people desist from any further ado about keeping his memory green.

Now the insurgent Republicans in the United States Senate are doing their utmost to defer the matter of passing upon the reciprocity measure, because they feel that the bill will have a better show when a new Congress is assembled than it would have in a Senate where the standpat sentiment is so strong. It is said that there is at the same time a filibuster movement on to prevent the exoneration of Senator Lorimer. The responsibility, therefore, of the handling of both these measures will probably fall on the Congress in extra session this summer, which session President Taft has declared would be convened if he did not at the present get a favorable vote on the reciprocity bill. The tariff schedule will also most likely be revised at the coming session. So that as matters now stand, it would seem that the Democrats are to be given an opportunity to make good their promises—a thing the Republicans have failed to do.

THE FREIGHT RATE DECISION.

The decision of the Interstate Commerce Commission as to the proposed plan of eastern and western railroads to raise freight rates has been handed down. The Commission disapproves the proposed advance in official classification territory, which would have amounted in the aggregate to nearly $27,000,000. Also in the case involving an increase of rates among Western lines, the Commission declined to give its approval.

J. J. Hill, president of the Great Northern Railway, says that the decision means that, while the railroads will continue to do business, there will not be much doing in the way of improvements in railway property.

Wall street is horror stricken, but not dumb. During the past two months railroad stocks have increased in some cases as much as ten points, owing largely to the belief that the Commission would favor the railroads. There will, of course, as a consequence of the decision, be a falling off in the sale and price of stocks. However, during the past two months the railroads have been making money, and they are in position to hold their own against even what is termed a slump, which is not likely to come. The railroads have, in many cases, recently increased the wages of their employees, and there is some fear that there will be a cut in the present wage scale, but this is not certain.

The railroads were perhaps never so prosperous as now, and within a few weeks their affairs will resume a normal aspect, and perhaps not a mile of proposed railway will fail of construction that was a certainty before the decision of the Interstate Commerce Commission.

As to a reduction of rates that are alleged to be too high, very few changes have as yet been made, and those that have been made do not affect the tariffs of the roads in North Carolina.

MAUD POWELL'S MASTERLY ART

Probably Beyond the Power of Words, Says a Texas Critic, To Give Even a Faint Idea of It.

The San Antonio (Texas) Light says: "One of Maud Powell's chief charms is her reverence of all music. Every number she rendered last evening was given with a perfection that might easily deceive a layman into believing she was playing a masterpiece of her own composition. Thus there could be no question of her pleasure in giving to others, and yet she was totally oblivious to everything but her art. And this to an extent that it was almost possible to realize the development of a theme by following the varying expression of her face, the half-suggested shrug of her shoulders, the slight movement of a body so attuned to a musical soul that it longed to aid interpretation by calling on the art of Terpsichore. And it is easy to believe that had Maud Powell not been a great violinist she might have become a great dancer.

"It is probably without the ken of words to give even a faint idea of the masterly art of this woman. At times, with the full understanding of maternity, she coaxes little trembling cries from her instrument as if a baby bird were in pain; and yet just as one gropes blindly, about to grasp the thought, the theme changes to the cry of anger from the enraged fatherbird, come to the rescue given with a masterly touch worthy of a man. But it is doubtful if ever bird-throat, wonderful as they are, emitted such soul-stirring sweetness as does the magic violin in the hands of Maud Powell.

"Even many great masters, in executing difficult passages that require the acme of technique, sometimes allow a squeak to slip through that mars the perfection of the melody beneath. One often hears it said of an artist that such and such number was given for the purpose of showing his technique. This would not occur to a critic in writing of Mme. Powell. While it would be impossible to show a completer mastery of technique than she displays, the intricacy of technique is never allowed to interfere with the music theme.

"While this wonderful artist shows in each number that she has carefully worked out every bar, even every note, yet her interpretations are as far from stilt or study as daylight is from night.

"Her program last evening was a comprehensive one, ranging from weird little movements from Lalo to a prelude by Bach played without accompaniment. What was undoubtedly the favorite number was the Ave Maria by Shubert. She followed this quickly with a delightfully capricious minuet by Mozart, and, by way of sharp contrast, reversed to a Hungarian dance by Brahms-Joachim. At the conclusion of this cycle she was forced to respond to an encore.

"The Tuesday Musical club has given many successful affairs, but it is doubtful if it has yet presented so gracious an artist or one who so completely enraptured her audience as did Maud Powell last evening."

Miss Powell will appear in concert at the West Market Street church annex on Tuesday evening, Feb. 28, under the auspices of Mrs. Alderman's Philathea class.

IN HONOR OF MISS WOLFE

Delightful Reception Given by Mrs. Cone—Numerous Prizes Distributed.

From 8:30 to 11:30 o'clock last evening was the occasion of a most delightful reception at the home of Mr. Caesar Cone. A number of the young people of the city were royally entertained by Mrs. Cone and her son, Mr. Herman Cone, in honor of Miss Louise Wolfe, of New York City.

The spacious rooms of the Cone mansion were well lighted and opened wide for the enjoyment of the guests. "Candy pulling" was the real issue of the evening but various sports amused the young people before this part of the pleasure began. Dancing was first on the program, and, in fact, was continued throughout the evening by those who love to "trip it on the light fantastic toe." But Mrs. Cone introduced a very lively game that engrossed the attention of the players. The guests were formed in two long straight lines. At each end of the rows was a table. The one at the head held twenty-five "bean-bags," twelve for each line. These were to be passed one by one from hand to hand and player to player to the lower table and returned in the same manner. The line that in two of three races first placed the bags upon the starting table was entitled to draw for prizes. In this way several handsome hat pins, card cases and silver pencils were distributed among the fortunate guests.

Soon after the party proceeded with the candry pulling. Great was the merriment manifested as the hot mass was pulled into pure white candy. Before this became hard the visitors vied with each other in forming different shapes and figures with the candy. Initials were written, men and women of all sizes were made, while harmless and tasty mice and cats were formed.

While the candy was allowed to cool, refreshments of cream, cake and lemonade were served by Mrs. Cone and Misses Norma Stewart, Louise Wolfe and Virginia Gardner.

Other games were played with merry zest, for a while. Soon, however, the guests departed on a special car, all declaring that they had never before enjoyed so great pleasure and splendid hospitality.

Surprise Wedding.

Thursday evening at Holy Trinity rectory Rev. Thos. G. Faulkner officiated at the marriage of Mr. A. C. Mellichamp, of High Point, and Miss Mary Short, of Winston-Salem. The marriage was supposed to have been a runaway affair, but both parties were of the proper age.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Cataarh. Hall's Cataarh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

BADLY INJURED IN A RUNAWAY

Father of Policeman McFarland Sustains Serious Injuries To Back and Head—But It Is Thought He Will Recover.

Mr. D. R. McFarland, father of Policeman McFarland, was badly hurt in a runaway accident yesterday morning near Guilford College. His injuries consisted of several bruises about the back and contusions on the head. As he is 72 years old his injuries went very hard with him. It is thought, however, that there is no danger of their proving fatal.

Mr. McFarland was going to mill and was driving a team of horses. He was found in an unconscious condition along the road side. The hind wheels of the wagon were about twenty steps ahead. The horses had run on into the mill yard, drawing the front wheels and body of the wagon.

Mr. McFarland was carried to the residence of Mr. "Bud" Blaylock, who lived close by. Drs. Long, Boyles and McCracken attended him during the day and they said that if there were no internal injuries the patient would come around all right. He was unconscious at 6 o'clock last night, but showed signs of returning consciousness.

Messrs. C. W. and S. S. McFarland, of this city, as well as Officer McFarland, are sons of the injured man. All three of them were with him yesterday.

Need More Cents and Nickels.

Washington, Feb. 24.—The disappearance of the large copper cent and the nickel cent from circulation has brought about a curious condition in the United States treasury. None of these pieces had been coined for years but enough of them were returned to the treasury each year to give the government a good profit in re-coining them into smaller copper cents and into nickel five-cent pieces.

Officials of the treasury department have informed congress that these pieces practically have gone out of existence. In order to keep up the supply of new cents and new nickels, congress will have to appropriate money to pay the expense of coinage.

SHORT SESSION OF THE ALDERMEN

Regular Semi-Monthly Meeting Last Night—Appropriation For Guilford Grays—Carriage and Dray Ordinance Passed—Other Matters Considered.

The regular semi-monthly session of the Board of Aldermen was held last night, Mayor Stafford presiding and every member of the board being present. Several matters were considered, the session lasting about two hours.

Chairman J. J. Stone, of the Fire Commission, appeared and read a list of the property owned by the Eagle Hose Company, negotiations to sell the same to the city having been begun some time ago. The entire outfit, including wagon, harness and other fixtures, was offered to the city for $434. The city has purchased the outfit belonging to the other four companies. Aldermen King and Ellington were appointed as a committee to investigate.

Mr. R. W. Harrison apepared before the board regarding a certain strip of land between the old county road and the railroad, the land now being used as a portion of Church street. Mr. Sellars, the owner of the land adjoining, claims that the land in question is not owned by the city and he wants $100 for the strip. Alderman Albright and Clendenin were appointed as a committee to investigate, the city attorney to assist in the investigation.

Capt. Kuykendall asked the board to make the annual appropriation for the Guilford Grays as the money was needed to defray expenses incident to the inspection on April 3. The members of the board were not willing to make the appropriation at this time, inasmuch as the annual appropriation is usually not made before the latter part of May, but a special appropriation of $50 was made.

A letter was received from Supt. Hutchens regarding the Fulton street crossing, the city having refused to pay a balance of $1,097 charged for putting in drain pipes. Alderman King for the committee appointed to investigate, recommended that $1,000 be allowed the company for the work. The committee appointed to investigate the Martin street subway was not ready to make a report.

A letter was received from the A. & M. College, thanking the city for installing new street lights in that vicinity.

Alderman King made a motion, which carried, that the mayor write the Public Service Company and request that the new electric light rates be put into operation as early as possible.

Alderman Albright offered an ordinance, specifying where street carriages and city drays can stand, the ordinance being passed under suspended rules. The ordinance requires that carriages shall stand on Elm between the railroad and Depot street and if there are other carriages they shall line up on the south side of Depot street west of the middle of the old freight depot. All drays shall be on the southside of Depot street and east of the middle of the building. If this space shall be inadequate to accommodate the drays the overflow shall be on the west side of Davie street. The ordinance also makes it unlawful for the draymen or carriage drivers to congregate together on the street.

The board adjourned to meet the first Monday night in March to appoint registrars and judges of election for the primary and general election for commissioners to be held on April 24 and May 2.

"A shoe may fit a lady's head
And likewise fit her purse,
But if her foot's not suited
Her condition's growing worse.
There's many a female woman
Who would otherwise be sweet,
Who goes through life a-grouching
'Cause her shoes don't fit her feet."

There's more truth than poetry in the above. It's out of the question for a woman to look pleasant and be happy when her feet are "just near about killing her." "But if her foot's not suited" it is because she has not given us a chance to fit it. We have so many different shapes and styles of women's shoes and slippers in stock now that we can fit any foot that's not actually deformed, and we carry all sizes from number one up to number nine in women's footwear. Now, don't imagine that you are obliged to wear "old ladies' comforts" in order to have your feet feel good. We can fit you in easy wearing, comfortable shoes or slippers that at the same time are neat and stylish.

If you have had trouble with your feet or your shoes—try this store next time. We can do you good.

LADIES, here's another shoe bargain for you. We have twenty pairs of $3.50 La France Patent Bluchers and laced shoes carried over from last season to close out at only $2.25, sizes 2, 2 1-2, 3, 3 1-2, 4, 4 1-2 and 5. If your size is in this lot it will pay you to see them. Thacker & Brockmann.

Are you an economical man? Here is where you can save a dollar on your next pair of shoes. We have forty pairs of $4.00 Bostonian shoes to be sold at $3.00, and twenty-five pairs of $3.50 Bostonian shoes to be sold at $2.50. HOW OLD PEOPLE

May Prolong Their Lives.

At an advanced age waste is more rapid than repair. The organs act more slowly and less effectually than in youth. The circulation is poor—the blood thin and watery—the appetite poor and digestion weak.

We want to say to every aged person in this vicinity that Vinol, our delicious cod liver and iron tonic (without oil) will prolong life. It creates an appetite, aids digestion and makes good blood. In this natural manner Vinol retards waste and replaces weakness with strength, giving new life to the worn system.

If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Fariss-Klutz Drug Co., Greensboro, N. C.

NOT MARRYING MEN.

Bachelors Who Darn Socks and Mend Torn Clothes.

London Daily Mirror.

Is the "slump" in the marriage market due to the increasing domesticity of the modern bachelor, who does not need a woman to look after him?

"Bachelors are becoming more and more domesticated," said a lady well known in the social world. "They can sew on buttons, darn socks and mend rents in their clothing.

"Gradually they are becoming independent of women's aid in these matters. They can look after themselves instead of marrying in order to get a woman to do these things.

"The growing domesticity of young men and the increasing worldliness of young women is, I am sure, responsible for the present slump in the matrimonial market.

"I know young men who have purchased their little housewives and calmly set to work in their leisure hours darning their socks or sewing buttons on their coats.

"They enjoy the work. 'It is soothing after business hours,' they say, as they puff at a pipe and commence stitching a torn glove."

An interesting opinion on this subject was also obtained from a well known needlework expert.

"An increasing number of young men," she said, "are taking an interest in sewing generally. They are certainly becoming more domesticated.

"On the other hand, the twentieth century girl can think only of golf, hockey, theatres and dances — every thing else else is 'rot.'"

Inquiries made at a large West End emporium show that large numbers of "housewives" (bags containing needles, cotton, wool, etc.) are now sold to young men.

"Even middle aged men are devotees of the needle," said a salesman. "They sometimes bring with them a piece of colored wool. 'I want a skein of wool this color,' they say, 'to mend my socks.'

"Other men have purchased various silks and cottons for making embroideries and table centres. 'I am making an embroidered centrepiece for my wife,' one man told me.

"It is chiefly among bachelors, however, that this domestic phase has become so prominent. They probably find the work of 'mending' congenial and restful for the mind.

"If men are content to do their own sewing and mending, marriages, when they are made, will be more ideal than they have been in the past," a well known novelist said.

"When a domesticated man falls in love with a woman there can be no underlying selfish motive. He does not want her simply because she can look after him. It would be a case of real altruistic affection and love."

Backache, Rheumatism, Sleeplessness

Result from disordered kidneys. Foley Kidney Pills have helped others, they will help you. Mrs. J. B. Miller, Syracuse, N. Y., says: "For a long time I suffered with kidney trouble and rheumatism. I had severe backaches and felt all played out. After taking two bottles of Foley's Kidney Pills my backache is gone and where I used to lie awake with rheumatic pains I now sleep in comfort. Foley's Kidney Pills did wonderful things for me." Try them now. Howard Gardner.

In Unfamiliar Surroundings.

"That Mrs. Gossip seems to be at home wherever she may be."

"Well, I saw her in a place yesterday where she seemed decidedly restless and uneasy."

"You don't say so? Where was that?"

"At home."—Catholic Standard and Times.

PNEUMONIA FOLLOWS A COLD.

But never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says: "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine. Howard Gardner.

Most pleasures have their drawbacks, and most promises have strings tied to them.

Wife Got Tip Top Advice.

"My wife wanted me to take our boy to the doctor to cure an ugly boil," writes D. Frankel, of Stroud, Okla. "I said, 'put Bucklen's Arnica Salve on it.' She did so, and it cured the boil in a short time." Quickest healer of Burns, Scalds, Cuts, Corns, Bruises, Sprains, Swellings. Best Pile cure on earth. Try it. Only 25c. at Fariss-Klutz Drug Co.

The Darning Method

Under the old way you spent hours darning the hosiery every week. You often had to sit up late at night to get the work done. In fact, it was a drudgery that you didn't know how to avoid.

Even when the work was done the hosiery was uncomfortable. This was not your fault, for the darning drew the stocking out of shape and left a thick pad which irritated the skin.

The Holeproof Method

With the new way you need never see the darning basket. You have your evenings to read and talk with the family. For if there appear any holes in the hose within six months, you send them back and get new hosiery.

Besides this, the hosiery makes the feet comfortable—it fits the ankle as neatly as a glove fits the hand. No wonder, then, that over a million homes have adopted this method.

FAMOUS Holeproof Hosiery FOR MEN WOMEN AND CHILDREN

Holeproof Hosiery is the first guaranteed hosiery ever put on the market. Others have imitated the guarantee, but they could not equal the 31 years of experience that made this hosiery possible.

Only the softest and finest Egyptian and Sea Island cotton is used, at 63 cents a pound. Others use ordinary cotton, at 12 cents a pound. Yet their hosiery sells for the same price as "Holeproof."

The heels and toes of "Holeproof" are 6-ply, while the body is 3-ply. Common hosiery uses only 2-ply throughout. So why not have "Holeproof" when the cost is the same?

Men's hose come in eleven colors and women's in six. Price from $1.50 to $3 a box containing six pairs. Children's hose come in two colors—black and tan—at $2 a box. Learn today what they are like—see how much darning they save.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Greensboro People Know How to Save It.

Many Greensboro people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when most all diseases and aches and pains due to weak kidneys can be quickly relieved by the use of Doan's Kidney Pills. The following statement leaves no ground for doubt.

F. S. Miles, Main St., Reidsville, N. C., says: "I am a strong believer in Doan's Kidney Pills, having used two boxes of this remedy. The results were very satisfactory and consequently, I feel justified in advising other kidney sufferers to give this preparation a trial."

WANTS GIRLS KEPT OUT.

Drinking Places Should Be Closed to Them, Says Mr. Owen.

Baltimore Sun.

State's Attorney Owens said yesterday that he believed his whirlwind trip Tuesday night among the drinking resorts of the city, for the purpose of seeing for himself if the law was violated, will have the effect of remedying the evils of which he saw evidences. He does not think there will be need to seek the aid of the grand jury in this respect.

"My visit to the drinking places," Mr. Owens explained, "will attract attention to the manner in which they have been conducted and will make the proprietors more observant of the law. I have received a number of letters complaining of young girls being served liquor. I intend to break up liquor selling to young girls, and by my trip Tuesday night I gave general notice of my intention. If the warning is not meeded other means will be taken and the grand jury will be called upon to help. In my opinion, now that their attention has been called to it, the proprietors of drinking resorts will take measures to prevent young girls from frequenting their places."

It transpired yesterday that Mr. Owens' trip was made without the knowledge of the police. Marshal Farnan said he knew nothing of it until he read of it in The Sun yesterday. Mr. Owens said, however, that he had no fault to find with the police.

Mr. Owens suggested to the Marshal that the proprietors of all places selling liquor to women, either directly or indirectly, be notified of the law. He also suggested that the police ascertain the names, ages and addresses of women seen on the streets at night who appear to be there for uncertain purpose. The Marshal said he would consult with the Police Board with reference to the suggestions.

About noon yesterday Mr. Owens was summoned to a conference with Governor Crothers. The conference lasted nearly an hour and is understood to have been related to the State's Attorney's trip Tuesday night. It has been known a long time that the Governor had agents visiting saloons and hotels for the purpose of ascertaining how they were conducted. This information was desired in connection with the Police Board investigation.

A Miser's Luxury.

There was a Middlesex couple once who lived on a sum to shock the most reckless of our correspondents. Daniel Dancer was the man. He looked on saving as an art and saved for art's sake. His father left him a farm and eighty acres, and his sister helped him carry out his scheme of life. He let the land lie fallow, says the London Gest. It costs money to cultivate land. For food the couple believed in one day, one meal. The batch of dumplings baked on a Saturday lasted out the week. For clothing he depended on hay bands "swathed round his feet for boots and round his body for a coat." But Daniel had a weakness. He would buy a clean shirt each year. And out of this arose the tragedy of his life—a lost lawsuit over threepence which, in Daniel's judgment, the shirt seller had wrongfully pocketed. He died in 1794 worth £3,000 a year.

Gypsy Wordless Language.

To communicate with one another gypsies now use letters—and they use the telegraph, too, when necessary—especially in this country. But the modern Romany also follows the "patteran," tracing the footsteps or wagon tracks of his friends on the road by the same method employed by his ancient prototype, reading directions where no words are written as clearly as the gorgio does a roadside signboard. But the patteran can be read by the gypsy only—it is hidden and secret, although it may be in plain sight, as a signboard is open and public. The patteran may be formed of sticks or stones or grass placed cross fashion at the parting of roads in such manner that only a gypsy would instantly notice and understand. To him it means much—first of all, the direction taken by Romany predecessors.—Century Magazine.

SPEEDY RELIEF FROM KIDNEY TROUBLE.

"I had an acute atack of Bright's disease with inflammation of the kidneys and bladder and dizziness," says Mrs. Cora Thorp, Jackson, Mich. "A bottle of Foley's Kidney Remedy overcame the attack, reduced the inflammation, took away the pain and made the bladder action normal. I wish everyone could know of this wonderful remedy." MARK TWAIN

1/2 Price
A New Edition

Now for the first time you get a complete set of all Mark Twain's writings at just exactly one-half the price they have ever been sold before. This is a new edition, just as complete as the old one, which still sells, by the way, at $50.00. This new edition is only $25.00—for the 25 volumes.

It had been Mark Twain's ambition to have his books in every American home, and he made a great personal sacrifice to bring about this remarkable opportunity—for the first time in the history of publishing, copyrighted books are sold at the price of non-copyrighted books—the chance will not come again.

But for Mark Twain's action this would have been impossible. Never before has a copyrighted library set of a standard author's works been issued at such a low figure.

His Complete Works—
25 Beautiful Volumes

Brander Matthews says: "Mark Twain will be included in that group of writers headed by Molière and Cervantes. With the exception of Count Tolstoi, Twain was the greatest of recent modern writers, and will be handed down to posterity through the trio of his works 'Huckleberry Finn,' 'Tom Sawyer,' and 'Pudd'nhead Wilson.' Twain is a greater stylist than Stevenson or Thoreau, and his 'Man that Corrupted Hadleyburg' is one of the finest works in English literature." Mark Twain himself wrote a preface to this edition. Brander Matthews has written the biographical criticism of Mark Twain and his work. There are portraits of the author at periods when the different books were in process of writing.

There are beautiful pictures by such artists as Frost, Newell, Smedley, Thulstrup, Clinedinst, Kemble, and Opper. The binding is in rich red rep silk book cloth, with title labels stamped in gold. The books are printed on white antique wove paper, especially made for this edition. Each volume is of generous size and bulk, 5x7⅛ inches.

COLORED REFORMATORY.

Proposition of Charlotte Negroes To Locate It In Charlotte Being Fought.

The colored people in Greensboro who are interested in the proposed reformatory for colored youth are using their best endeavors to cause the Foulks Reformatory to be the one to be selected by the State as a State institution. There is also a movement started by Charlotte negroes, but there is this difference between the two propositions: The Charlotte negroes stipulate that the reformatory shall be located in that city. Those who are interested in the Foulks reformatory propose to put it where the greatest inducements will be offered. Attorney Geo. H. Mitchell, one of the most active workers for the Foulks institution, hands The Telegram the following resolutions adopted by the North Carolina Colored Teachers' Association in session last June, showing how that body regards the Foulks reformatory:

That the ten or more years' agitation by the Teachers' Association of the importance of a reformatory for youthful negro criminals has been more or less potent in producing present conditions of the public mind. The growing sense of the urgent need of a reformatory is indicated by the several efforts the public spirited and progressive leaders of thought and action, are taking in various sections of the state.

That the importance of the subject is of such far-reaching effect and the undertaking is of such large proportions and delicate complications as to call for the united efforts of all patriotic and public-spirited citizens. State aid and direction may be secured by harmony. Conflict and clashing of interests will surely prevent the materialization of this important movement.

That the trustees of the Foulks reformatory and Manual Training School which was incorporated in 1909 are to be commended for their consideration in waiting to hear from all sections of the state as to representation and location.

That this association endorses the Foulks Reformatory and Manual Training school incorporated under the laws of 1909, and that it appoints a committee to advise with the board of trustees of said school and with similar committees and boards, in the interest of the reformatory movement, especially in presenting this matter to the Legislature of 1911 for the appropriations indicated in the articles of incorporation of the Foulks Reformatory and Manual Training School.

The annual meeting of the Central Carolina Fair Association was held Thursday night in the Greensboro National bank building. The reports of the officers showed that the organization was in good shape financially. It was decided to erect additions to the present agricultural buildings, the new buildings to cost about $4,000, in order to accommodate the entries. The following officers were elected:

Eugene V. Debs, the Socialist orator, was in Chicago recently and addressed an audience of 7000 people who were highly pleased with his address. Applause after applause was thundered from the immense audience as Debs scintillated in bright epigrams that penetrated the depths of the question in a flash. A leading lawyer in Greensboro who was in one of Debs' meetings remarked that "although Debs spoke for two hours, I wish he would have kept on two hours longer. He is certainly an orator." Debs will be in Greensboro March 25, at the Grand 8 o'clock p. m. 1t
